

Demonstration of Proposed Features

Date	02 July 2026
Team ID	
Project Name	Rising Waters
Maximum Marks	1 Mark

Demonstration of Proposed Features:

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Home Page	Provides an introduction and navigation to the flood prediction system.	Implemented	Yes	Working successfully
2	Flood Prediction Input Form	Allows users to enter meteorological and rainfall parameters.	Implemented	Yes	Tested and verified
3	Real-Time Flood Prediction	Generates flood risk predictions using the trained ML model.	Implemented	Yes	Integrated with Flask backend
4	Flood Chance Result Page	Displays flood risk when flooding is predicted.	Implemented	Yes	Working successfully
5	No Flood Chance Result Page	Displays no flood risk message when flooding is not predicted.	Implemented	Yes	Working successfully
6	Machine Learning Model Integration	Integrates the saved XGBoost model and scaler into the application.	Implemented	Yes	Model loaded successfully

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
